

# Natural Ag Solutions

High Performance  
Ag Products

# Optimizer

GUARANTEED ANALYSIS:

**Soluble Potash (K<sub>2</sub>O) ..... 2%**

*\*Derived from Potassium Hydroxide*

Also Contains Non-Plant Food Ingredient:

**19% Humic Acids**

*\*Derived from Leonardite*

## SUGGESTED DIRECTIONS:

**FOR BEST RESULTS** apply 3-8 gallons per acre to the soil over the growing season. For Maximum Effectiveness apply in multiple applications, preferably through Fertigation. Safe to use in all irrigation systems. Does NOT plug emitters. OPTIMIZER is NOT corrosive to hoses, pipes and gaskets.

**IF TANK MIXING:** Apply ½ to 3 Gallons of OPTIMIZER per acre. Fertilizers and nutrient products with extremely low pH will cause the Humic fractions of OPTIMIZER to precipitate. Agitation is recommended to prevent precipitation. A compatibility test is recommended before full scale mixing, if the desired combination has not been used in the past. OPTIMIZER is NOT compatible with liquid calcium products.

**SEED SOAKS and TRANSPLANT SOLUTIONS:** Apply ½ gallon per 20 gallons of solution.

**Conditions of Sale:** Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. Seller makes no other express or implied warranty. The user assumes all risks of use or handling whether or not in accordance with directions or suggestions. The exclusive remedy against the company for any cause of action relating to the handling or use of this product shall be limited to, at Natural Ag Solution's discretion, one of the following: 1) Refund of the purchase price, or 2) Replacement of the product used
